TUTORIAL

Welcome to 2025! Explore an expanded collection of games!

With over 40 games available, all undetected and cleverly disguised under alternate names, there's more than ever to enjoy!

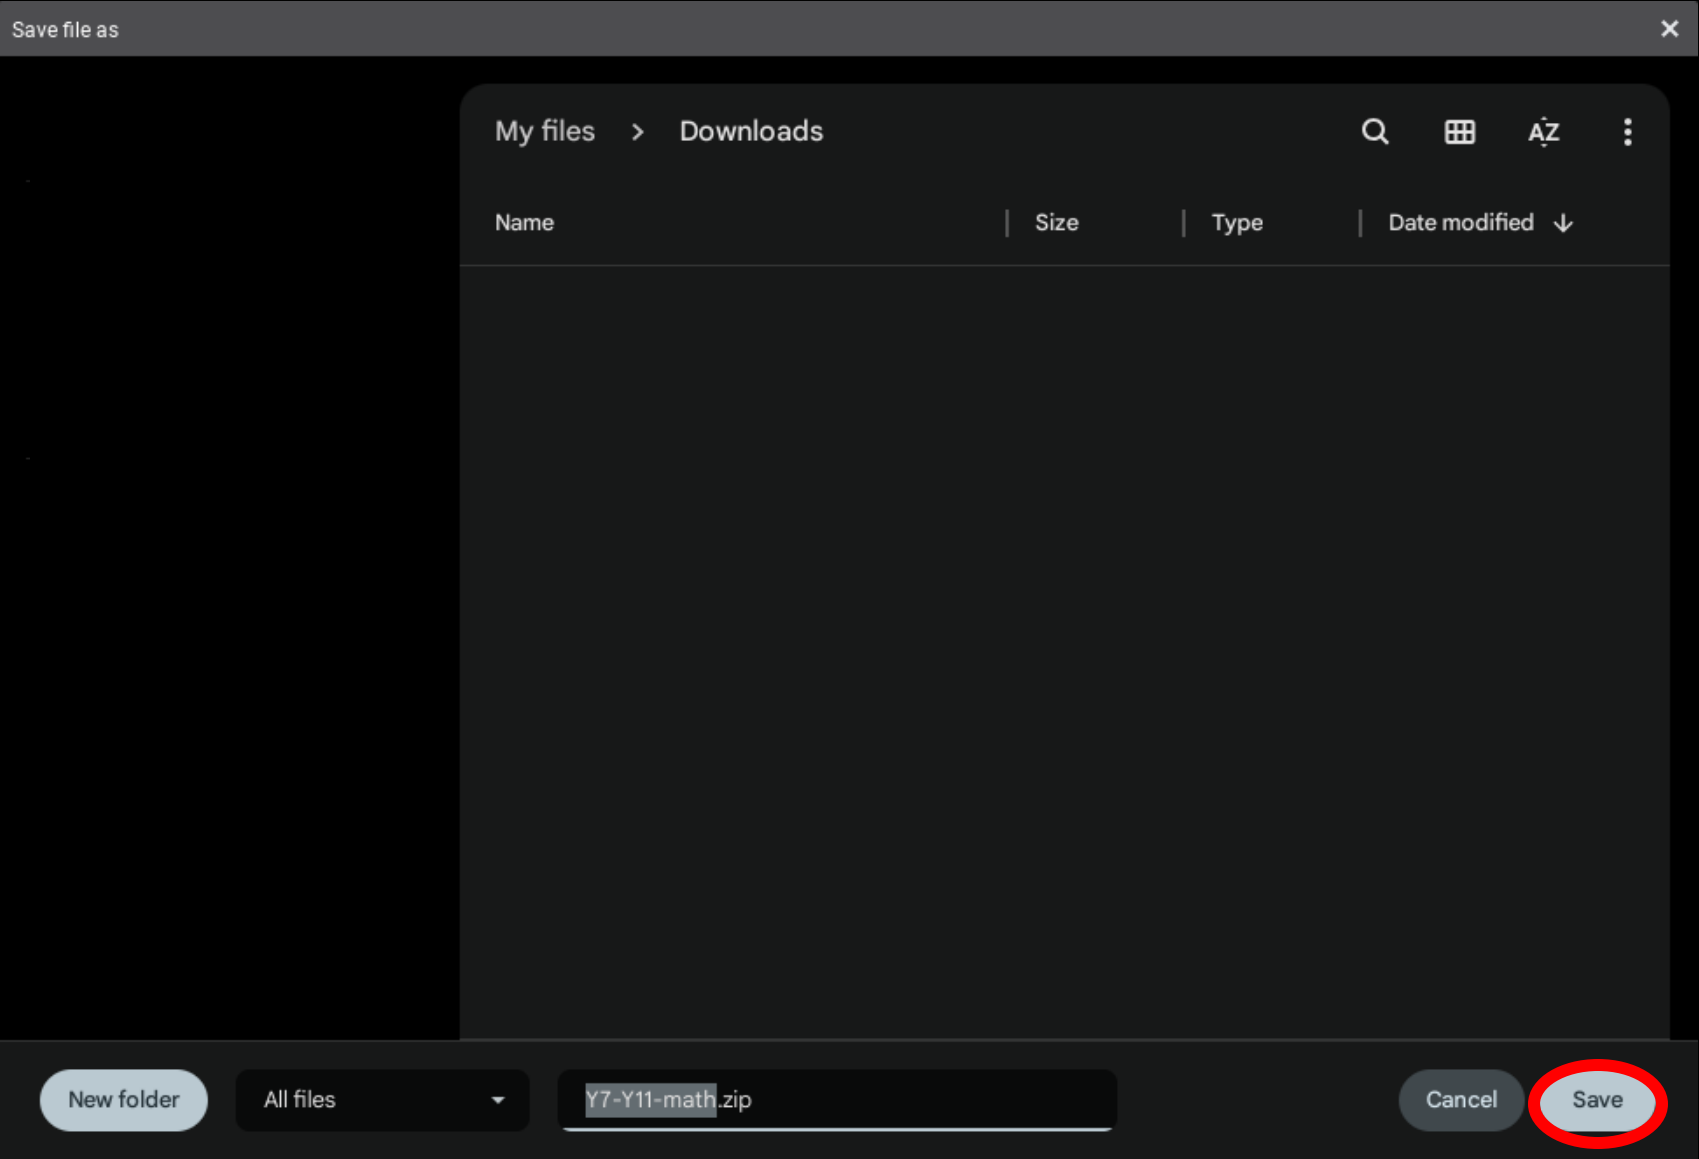

In some folders, you'll find a text file named "Math Vocab." This file deciphers the disguised names, such as "PacMath" (representing "Pac-Man"), helping you identify the games.

At first glance, you might see around 20 games, but be sure to check the "More" and "Even More" folders for additional hidden gems!

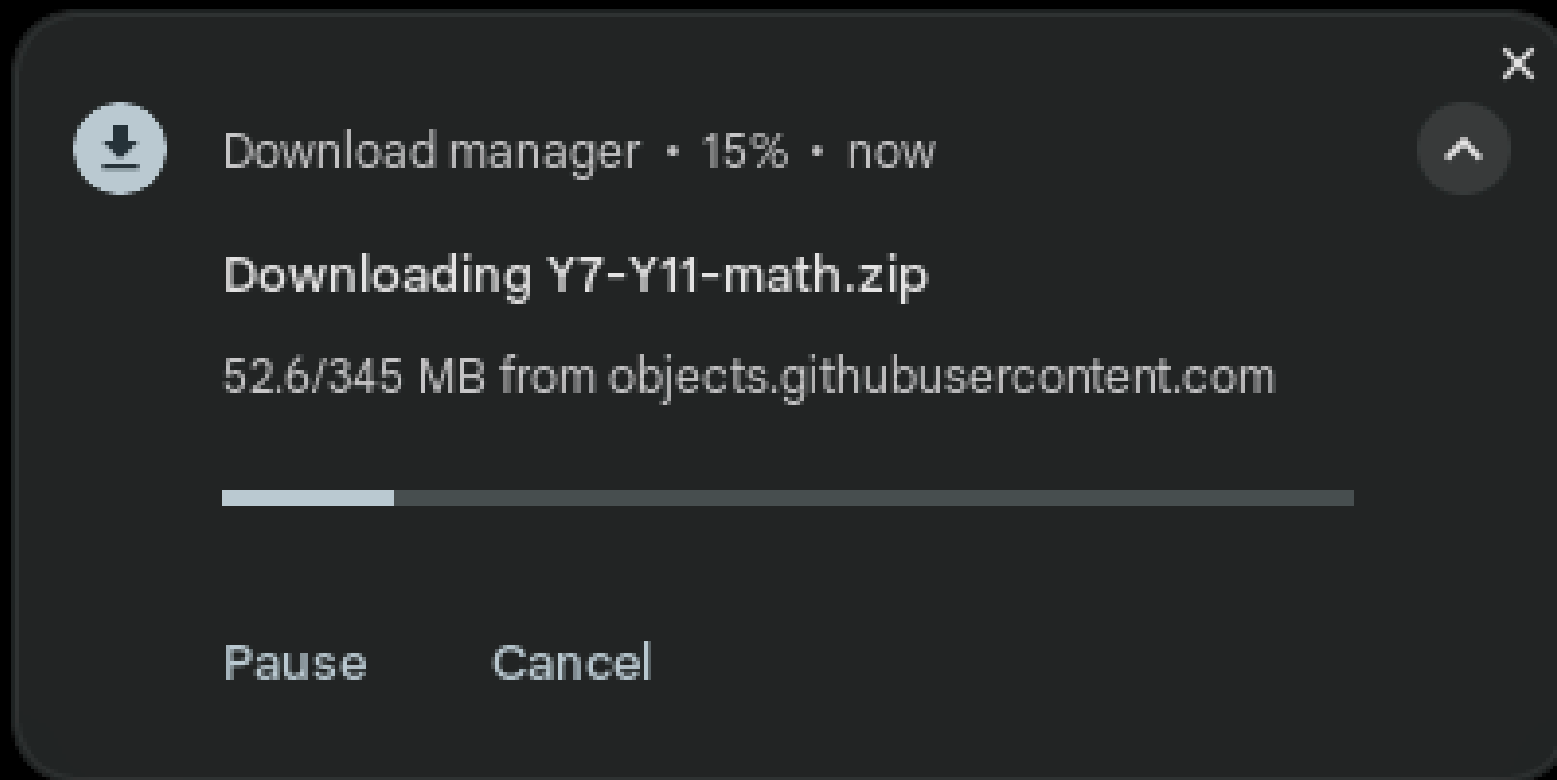

Here's a fun fact: If you're wondering how to pronounce VOIDAGON X Y Z just replace the "hex" in "hexagon" with "Void"—simple and catchy!

The name VOIDAGON X Y Z combines "Void," "Hexagon," and "X Y Z," with

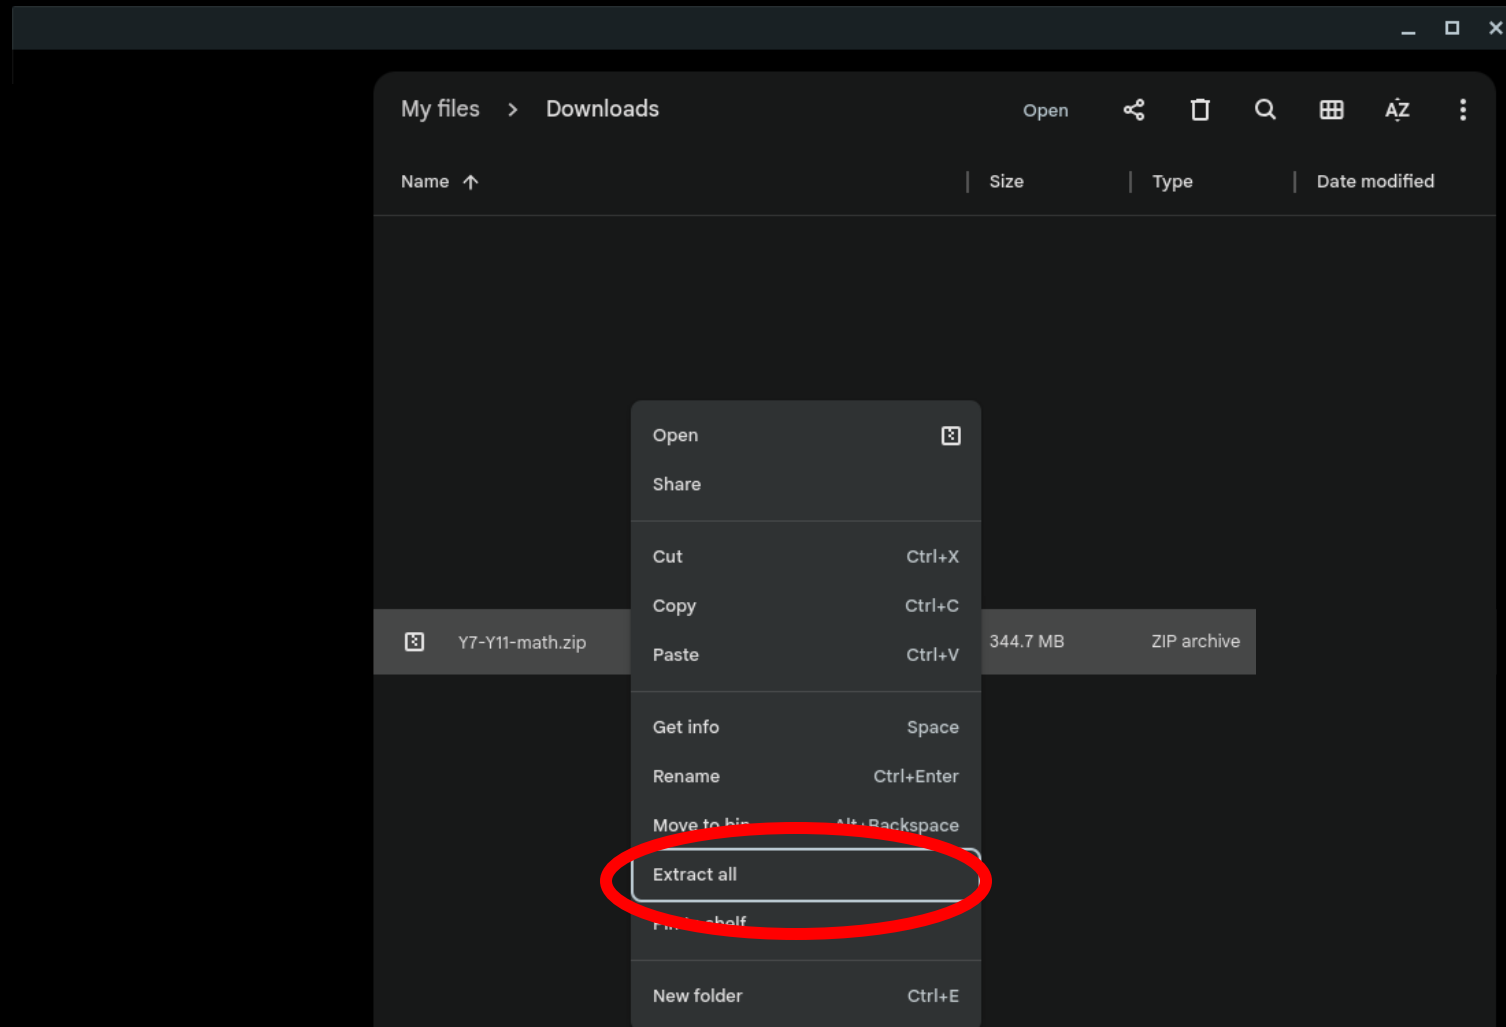

Click 'Save.'

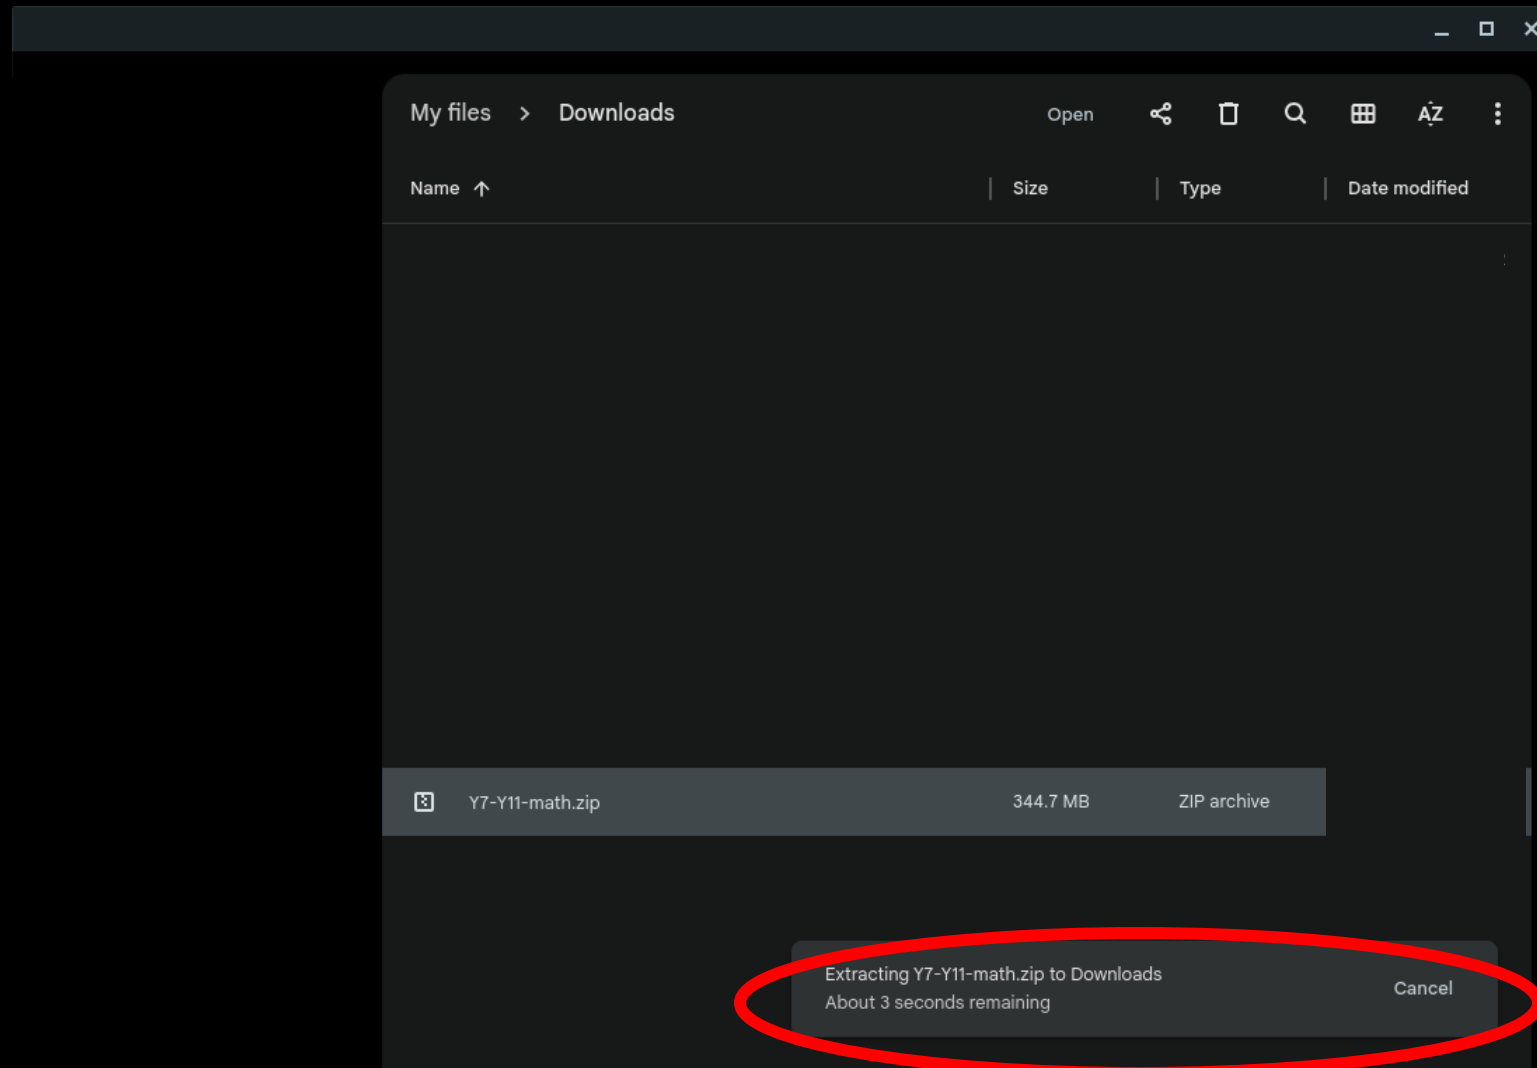

Wait for it to download.

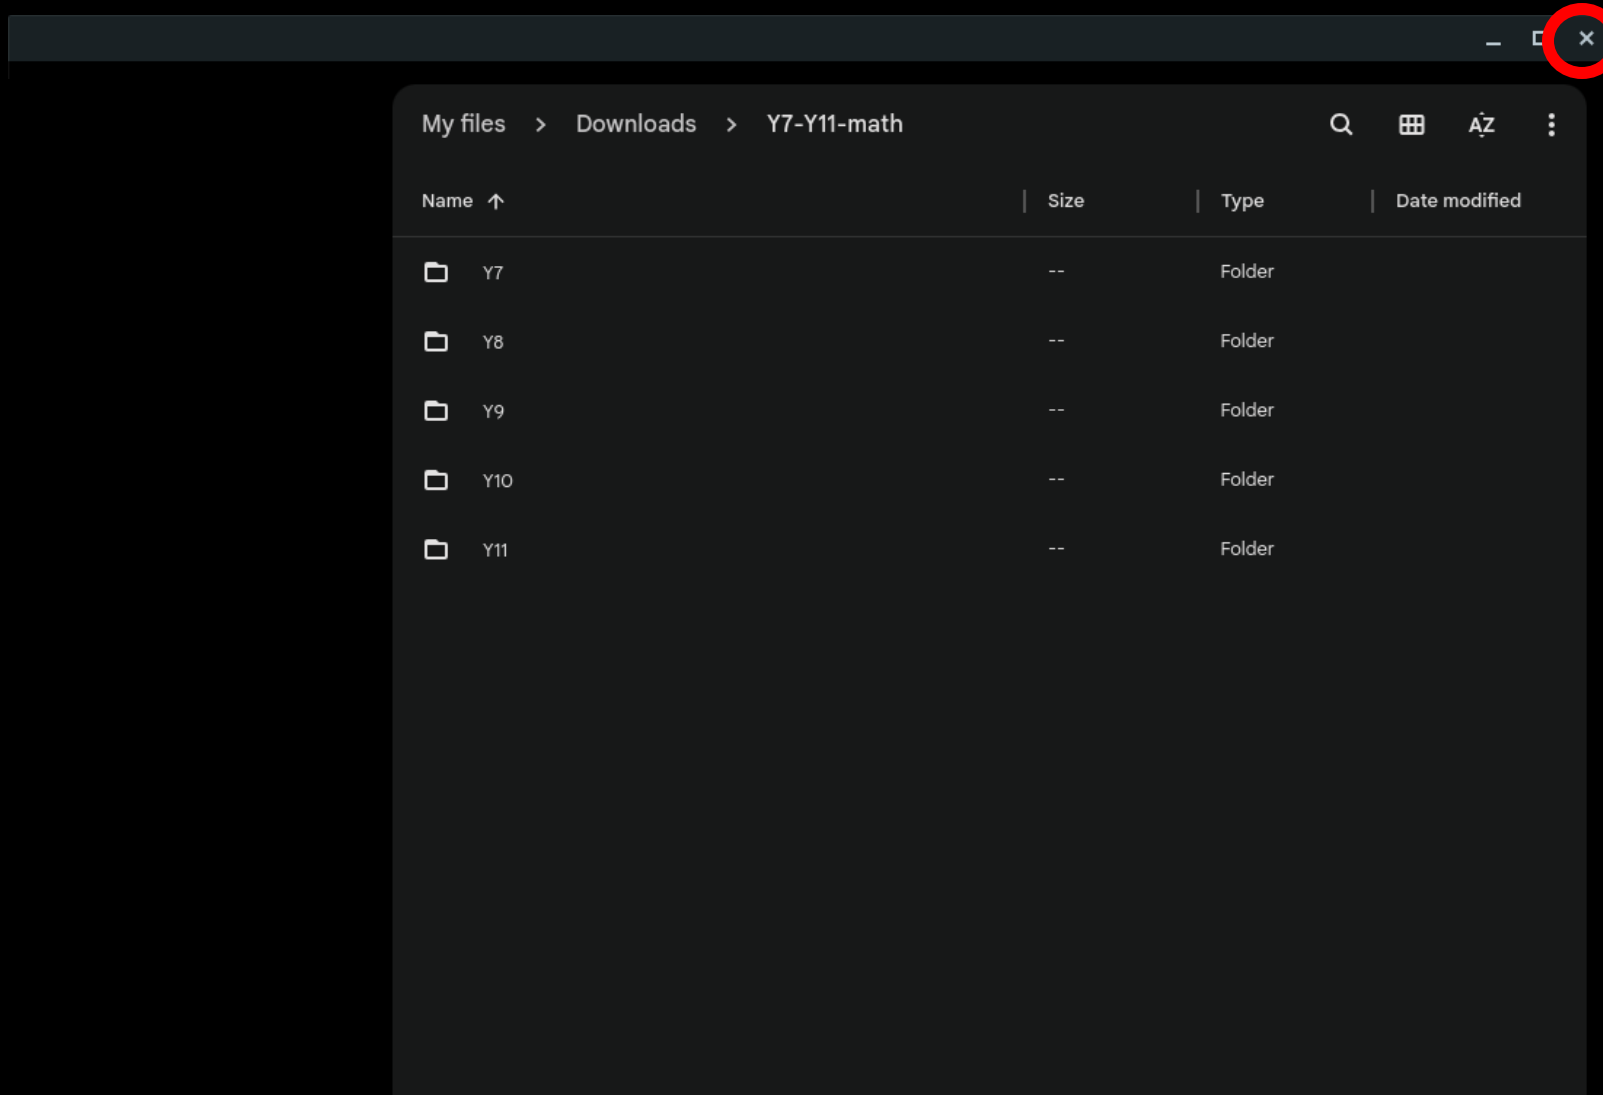

When it's done, right click it (or alt+click) and click 'Extract all.'

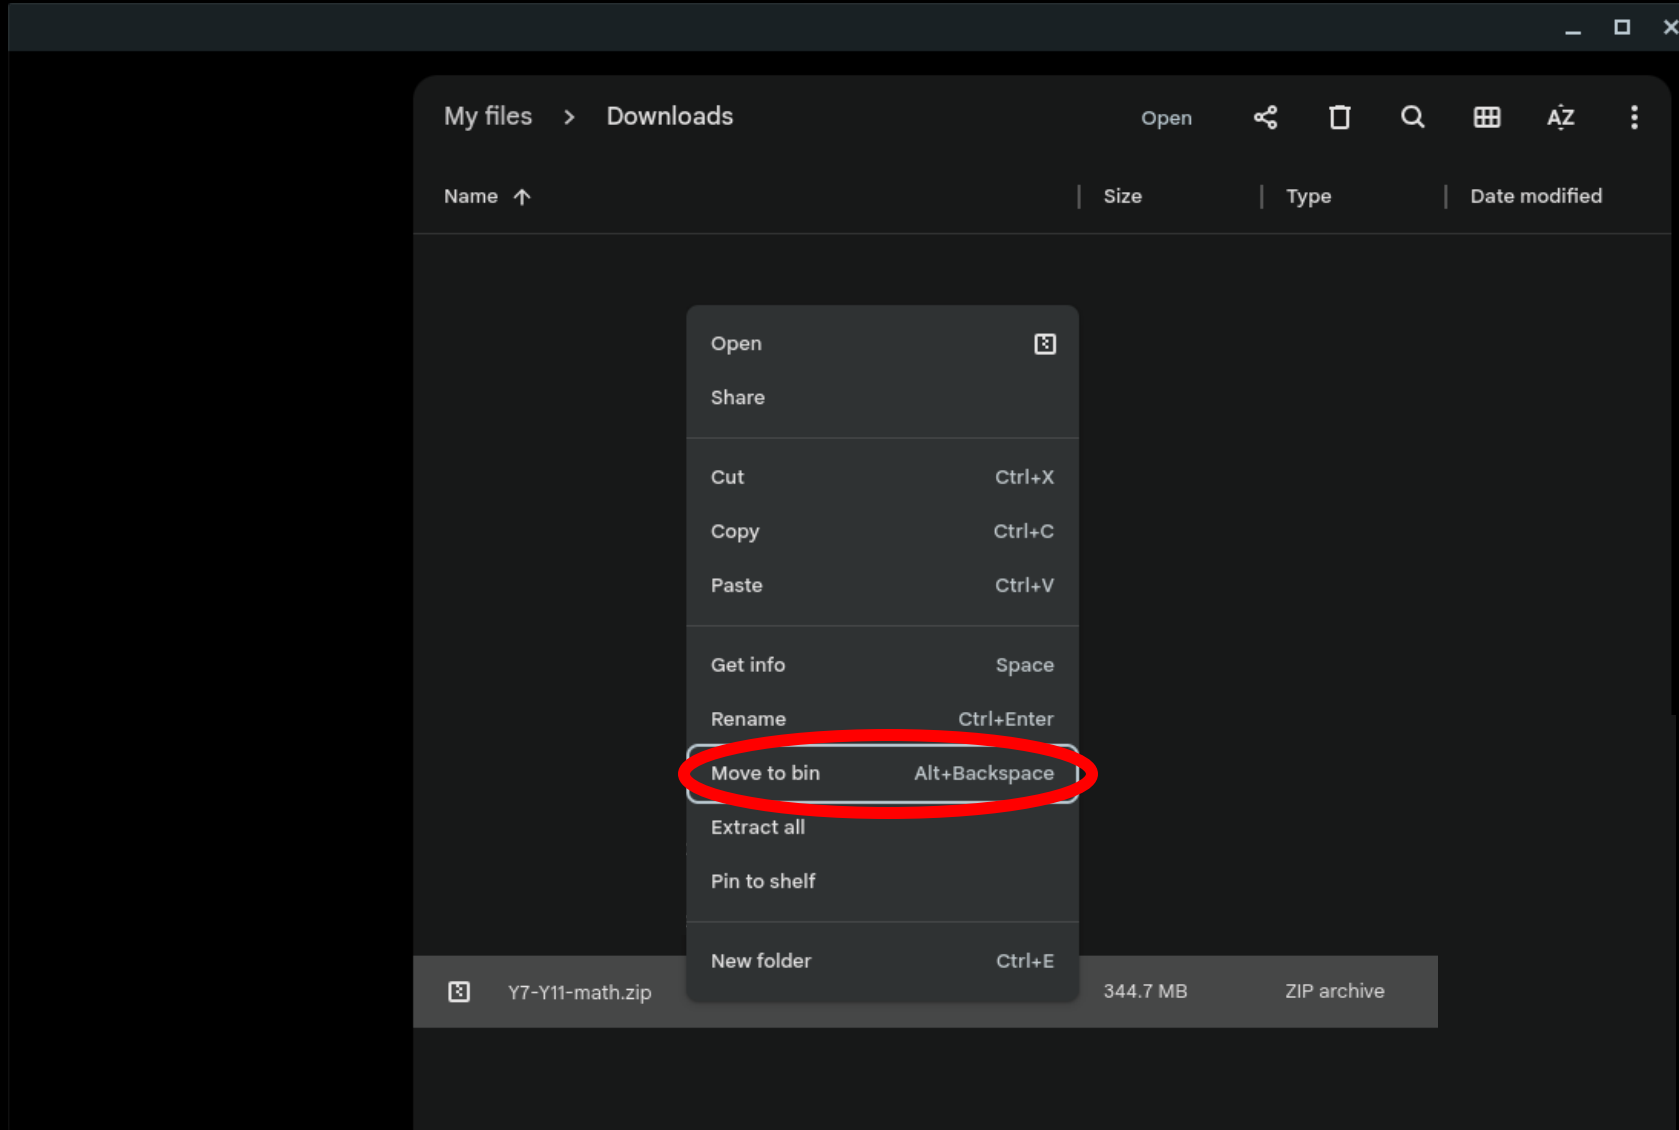

Wait for it to finish.

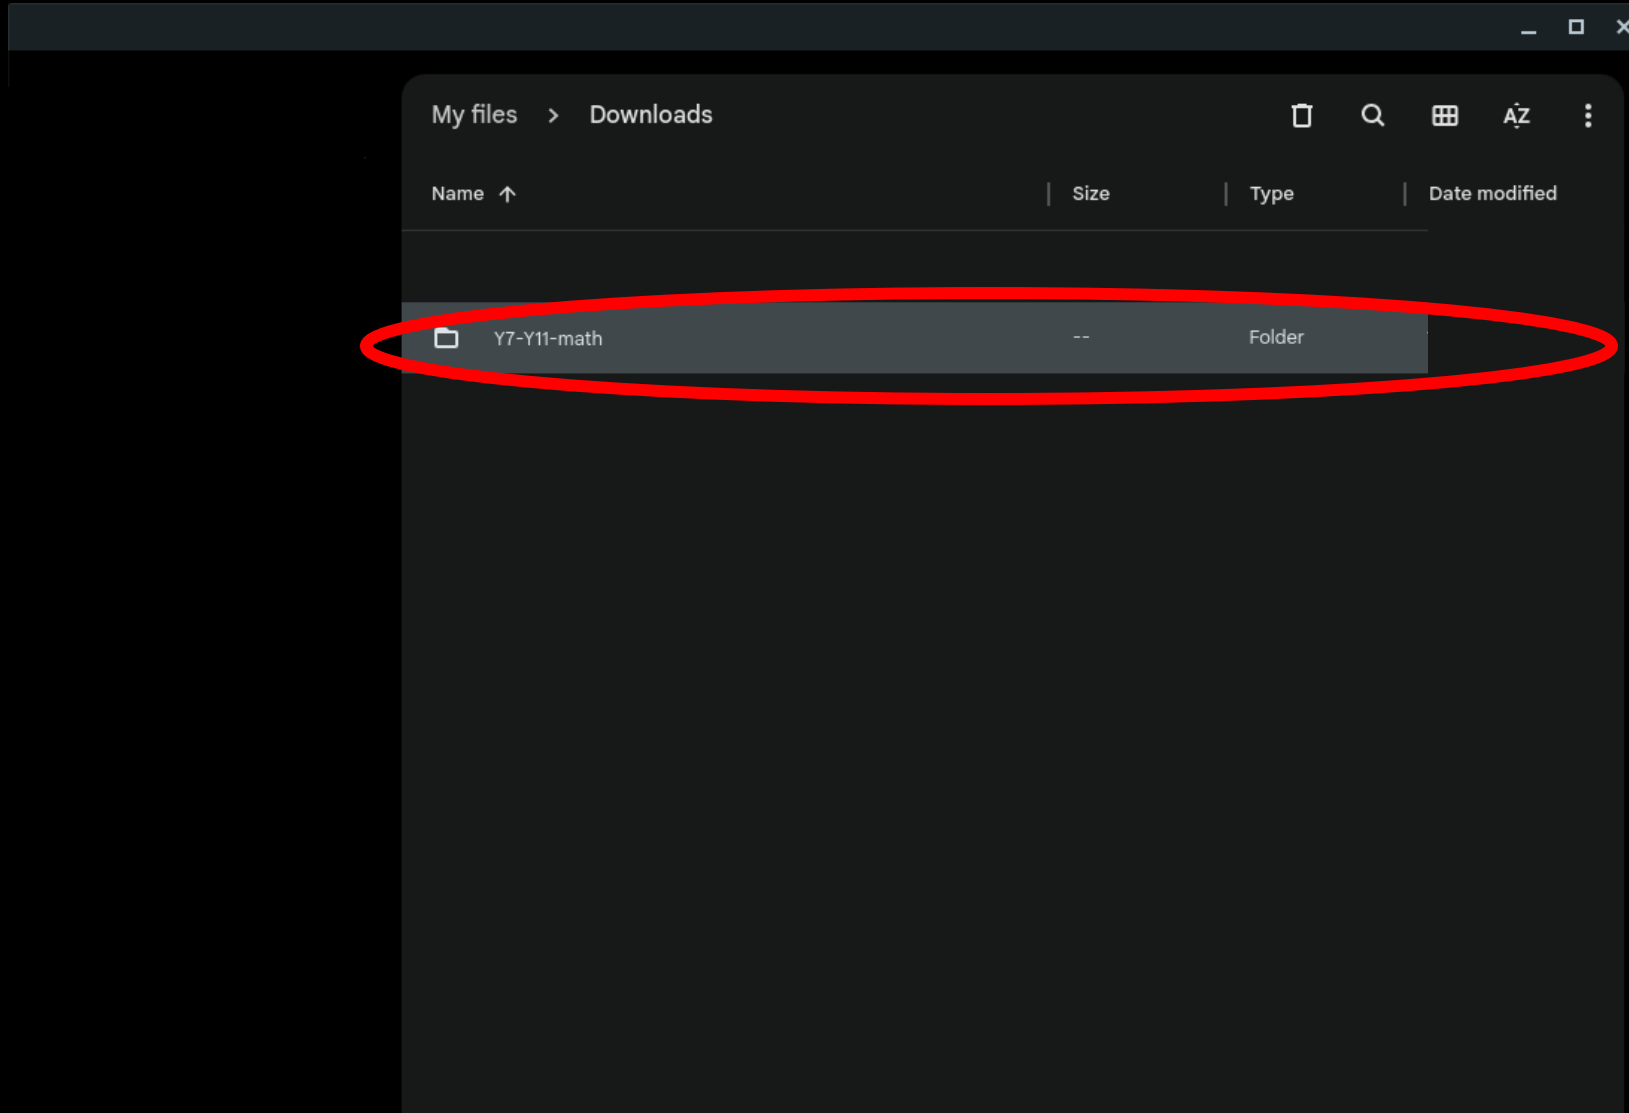

This window will open. Close it.

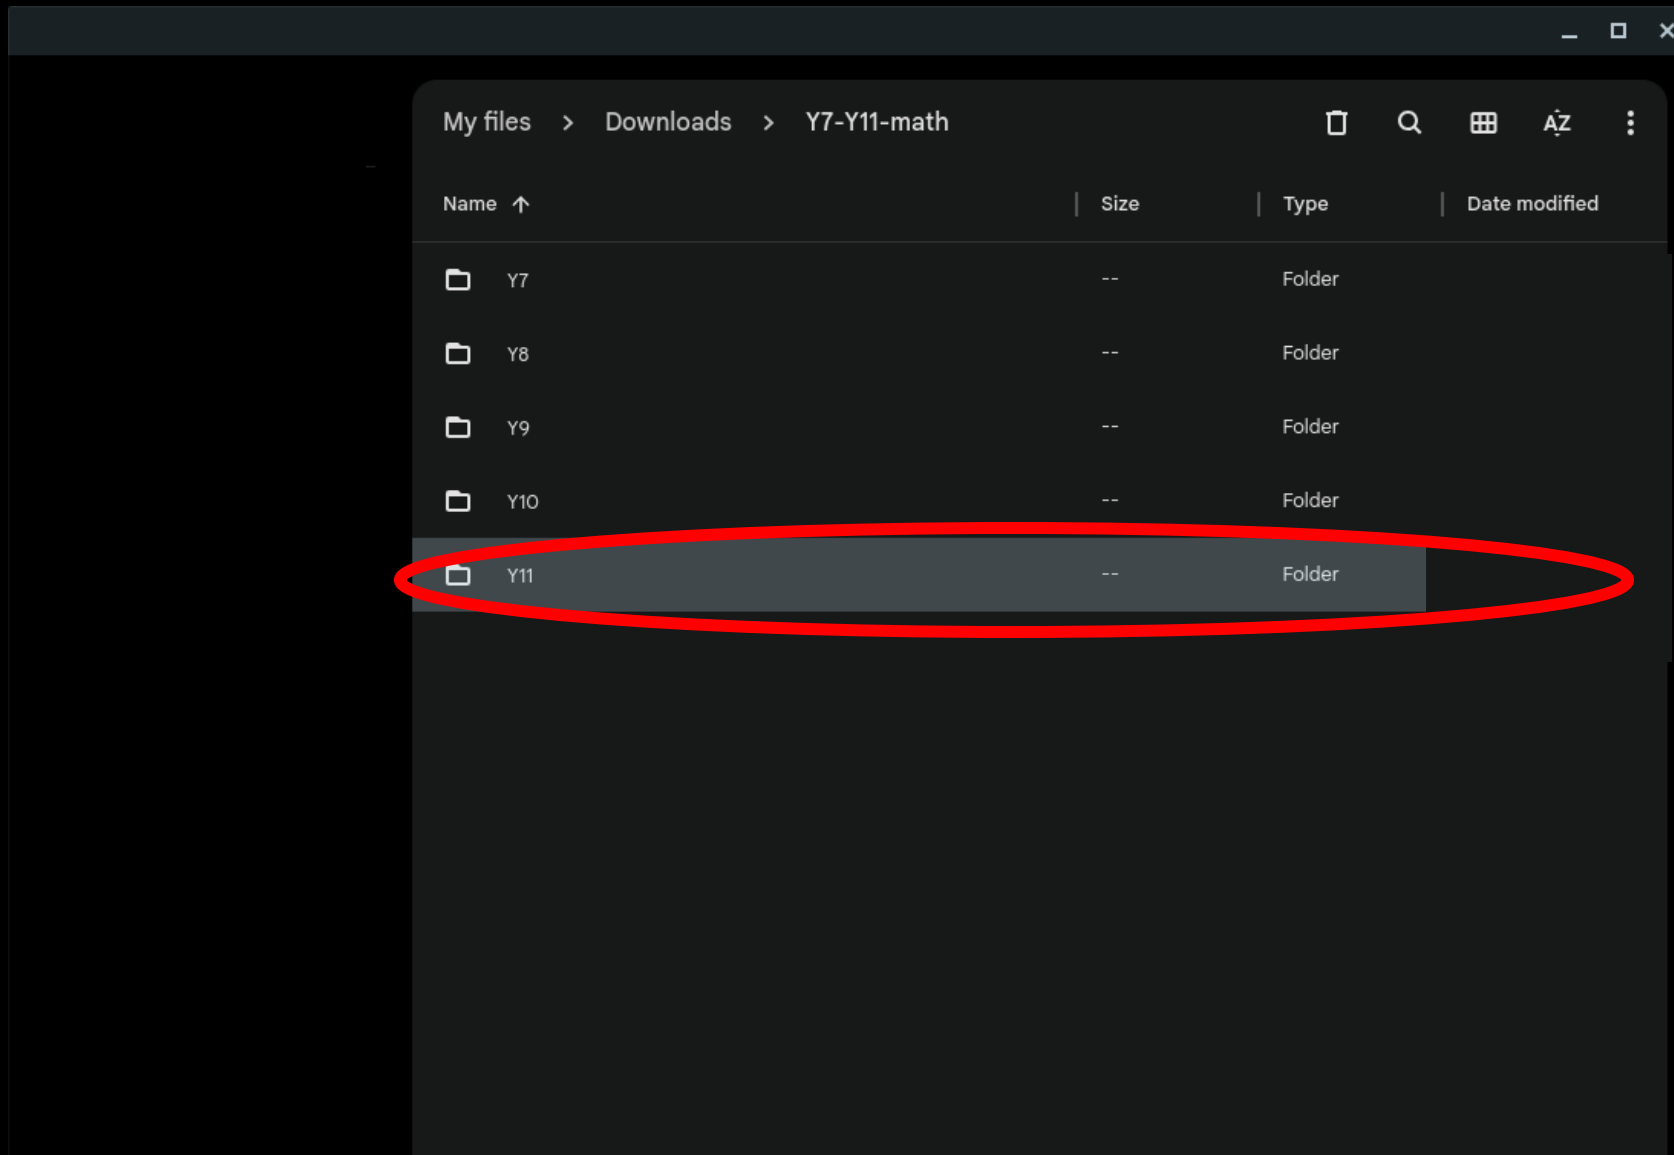

Delete the .zip file.

Open the folder.

Open 'Y11' folder.

Here are all the games.
To play a game, open the folder and open `index.html`.
Don't forget to look in '`more`' and '`even more`' folders.
Update regularly when needed (check `Update Checker`.)
`mathvocab.txt` has all the names decoded for you.
